

Dead Like Me

hey...
down there?
who are you?
why do you look at me
the way you do?
hiding your life
behind a masque
and you tell me
there's no reason for living

But hey,
do you really want to be
dead like me
dead like me
I've seen you speeding round the town
on your yellow bike you fly and fly
trying to reach the sky
trying to send me a message
trying to throw it all away
well why make that mistake
or do you really want to be
dead like me
dead like me
and I said hey
do you really want to be
dead like me
dead like me

And little girl don't despair
you'll see me again
And little one don't be scared
you don't have to pretend
It's okay to feel
It's okay to fly
It's okay to bleed
It's okay to die
But please
heed this old bit of advice
don't be like me
don't be dead like me

and I said hey
now that I've left you
you have no reason to be
dead like me

Dead Like Me (reprise)

hey
down there
here's to you
have a happy life
in all that you do
please
remember me
but please
don't be like me
don't be like me
don't be like me
don't be dead like me
have a life
have a life
have a life
have a life
