

Paid To Be Put Away

I knew a girl once
her name fit her true
she was a great friend, I thought she'd always be there
every day we'd go outside
admire nature's beauty
until the day they took her away

Her mother said
she's bipolar
she yells and screams at me
her father said
she's a dumbass
get this bitch away from me

They said she was
the crazy one
she had 10 social diseases...

So they sent her to a psychiatrist
and paid him to lie
(for money rules the world)
so they locked her up, threw 'way the key
left their kid to die

They said she was
the crazy one
she had 10 social diseases
so they sliced her up
shipped her out
for hell, she's just a kid

10 years have passed now
this town's still the same
go to the graveyard
find a tombstone with her name
"Here lies Caity, we all knew her well,
signed,
the doctors at Memorial"

They said she was
the crazy one
she had 10 social diseases
so they sliced her up
shipped her out
for hell, she's just a kid
